

# White Ash wood

White ash is a valued hardwood. Its admirable strength, hardness, and elasticity make it ideal for such products as baseball bats, billiard cues, hockey sticks tool handles, utility furniture, and vehicle and boat parts. This versatile wood is also widely used for fine flooring, cabinetry and furniture. If you are looking for a wood that combines strength and lightness, white ash might just be the best choice for your next project.

## Grading System

SPF Lumber is graded in the same way in all parts of Canada, according to the rules written by the National Lumber Grades Authority (NLGA).

FAS- Select	No. 1 Common	No. 2 Common
